# Overview

On October 7-9, 2009, eighty-seven participants representing 42 different organizations consisting of a wide range of stakeholders in the nursing certification community - consumer advocates, researchers, specialty organizations, associations, educators, state boards, and testing organizations - gathered for the Nursing Certification and Competency Summit in Baltimore, MD. The purpose of this Summit was to develop a unified, international research agenda for nursing certification.

This Summit consisted of a series of facilitated activities focused on identifying research projects that best supported the Research Priorities identified in the March, 2009 meeting in Ft. Lauderdale, Florida. Once the research projects were identified participants focused on designing the processes, tools, structures and funding mechanisms necessary to support this Research Agenda.

As part of this process the participants decided that ABNS should take a prominent role in managing the work of the Research Agenda going forward. A team developed a proposal for participants to take to their respective Boards to request the endorsement and support of the participating organizations. Another team developed a draft of the Research Agenda itself. Those documents will be finalized and distributed after the Summit.

This document summarizes the activities from the Summit and is in chronological order.

# Benefits

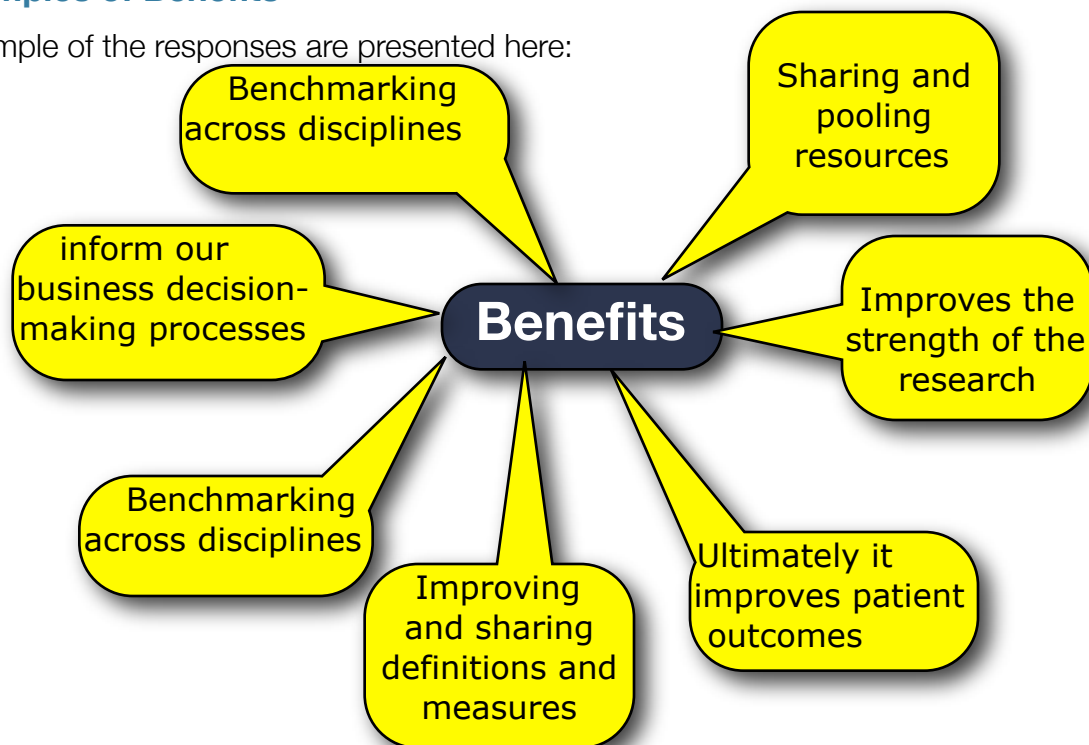

The first activity focused on identifying the benefits of having a unified research agenda focused on nursing certification. Participants were first given an opportunity to articulate for themselves, individually, their answers to the following question:

*What are the benefits to your organization to align with, and agree to support, a unified research agenda around nursing certification?*

## Examples of Benefits

A sample of the responses are presented here:

# Vision 2015

After an introduction by the ABNS and CCI which provided context for the work being undertaken at this Summit participants were challenged to think about the future in a 'backcasting' activity. This activity asked participants to imagine the year is 2015 and there not only is an internationally accepted research agenda but that agenda has been very successful. Given that success, now look back on the past 6 years and tell us what has been accomplished in the specific areas of

- partnerships
- funding
- marketing and communication
- and achievements

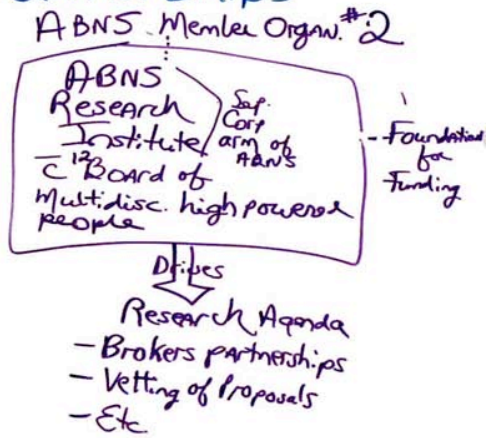

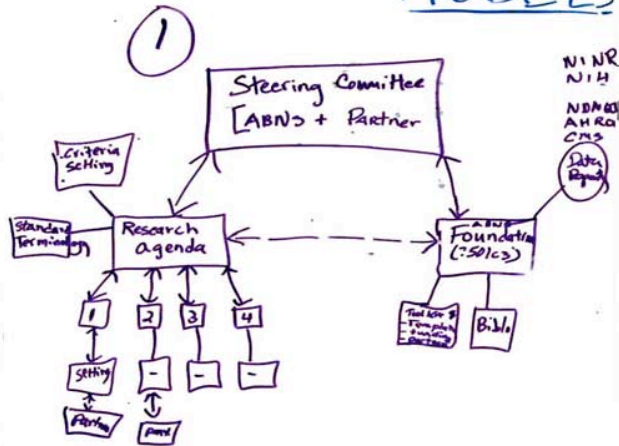

## **Participant Work Product**

During this process three small groups focused on each of the four specific topics. The next activity then provided several small groups the challenge of synthesizing the work of the groups that had similar topics.

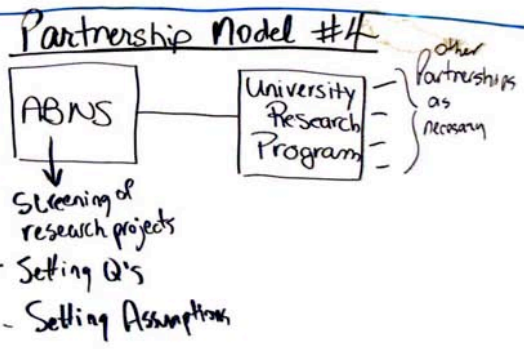

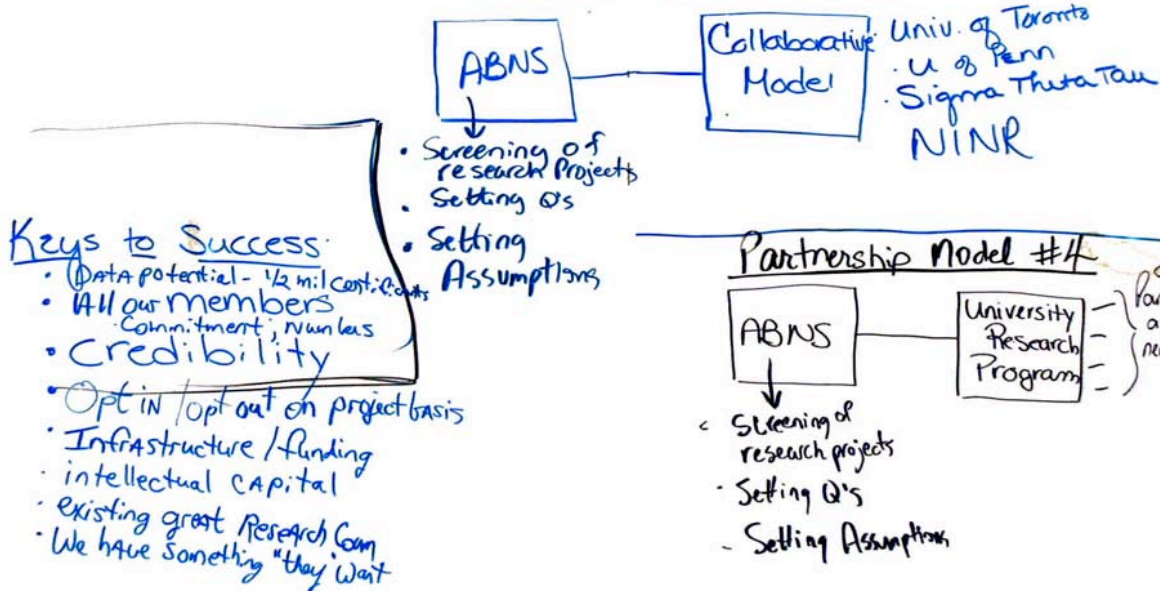

One of the groups defined four possible partnership models:

TEAM 12

# MODELS → Partnerships

## Partnership Model #3

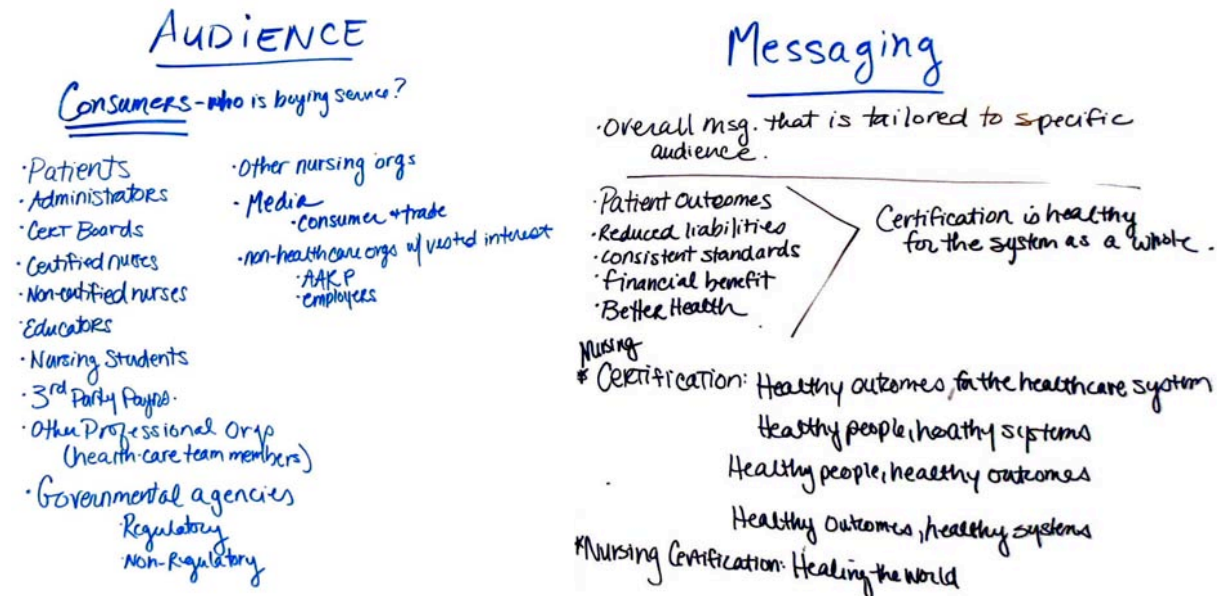

Another group came up with a set of recommendations for funding:

TEAM 2

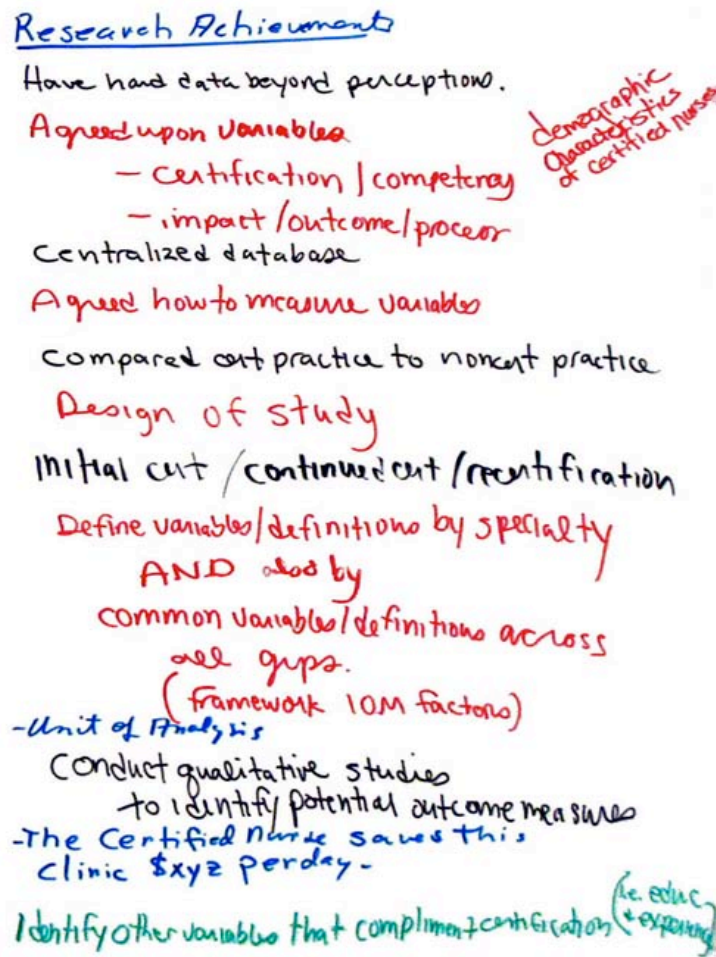

### Recommendations:

- Establish Finance Committee
- Draft + complete Needs assessment
- Develop job description and performance standards for finance "guru"/grant writer (contractual relationship)
- Establish process for peer review and grant awards
- Establish mechanism for distribution of information
- Set timelines for process evaluation/re-evaluation
- Determine research priorities
- Communicate research agenda to funding sources
- Global assessment of funding opportunities
- Develop model for initial/estimate funding

A third group came up with a set of recommendations for marketing:

And a fourth group came up with an outline of our achievements by 2015:

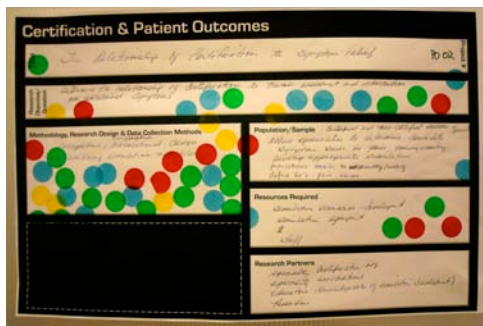

# Research Projects

The back casting activity set the stage for the group to come up with their first set of projects for each of the research priorities. Several groups worked on coming up with project possibilities and then they were challenged to consolidate their list to 3 to 5 projects that could be considered to be included as part of the unified agenda.

Each project was presented on a template and then participants were given an opportunity to vote on which projects they felt were most important and should be worked on further in the next round of work using a multi-voting technique.

The results of the dot voting was then presented for the participants to further discuss.

After this they were given the opportunity to sign up for the project they had the most interest and/or passion about.

## Voting Results

cc01	1	Certified Emergency Nursing and Triage Decision-
cc02	18	Defining Competence and Continuing Competence Existent in Specialized Nursing Relative to IOM
cc03	39	Recertification: Identification of Best Practices, Assessment, Frequency and Methods Is a Multi-Pronged Approach to Research
cc05	9	Does Nursing Certification Influence Medication Error Rate in Acute Care Populations?
po01	32	Relationship of Certification to Failure to Rescue
po02	51	Relationship of Certification to Symptom Relief
po03	14	Impact of Nursing Certification on Patient/Family Education
po04	26	Impact of Certified Nurses on Adverse Events
po05	4	Frequency of Medication Errors Among Certified and Non-Certified Nurses (co-factors education experience)
we01	11	Does the number of certified nurses relate to higher "customer" satisfaction?
we02	3	What are the factors in the work environment that contribute to a nurse seeking and maintaining certification and what are those obstacles?
we03	1	Do certified nurses contribute to higher recruitment and retention rates of nurses within their healthcare organization?
we04	37	Do certified nurses perform/have greater knowledge/greater critical thinking skills than non-certified?
cv01	38	Value of certification by the public/consumer
cv02	0	Value of certification by co-workers, including MDs
cv03	13	Value of certification by employees

# Project Proposals

After a round of work focused on developing detailed project plans the participants were again asked to vote on which projects to be included in the agenda and which ones - even though still viable - would not to be part of the unified agenda. Here is a result of the voting:

	<i>Part of the Research Agenda</i>				
<i>Teams</i>	10	5	2 & 9	1	3
<b>Project Name</b>	<b>Critical Thinking</b>	<b>Certification &amp; Adverse Events</b>	<b>Recertification</b>	<b>Certification &amp; Symptom Relief</b>	<b>Value of Cert by Employers</b>
<b>Yes</b>	65	62	60	31	15
<b>No</b>	5	0	1	22	49

<i>Teams</i>	8	6 & 7	11	4
<b>Project Name</b>	<b>Defining Competence Relative to IOM</b>	<b>Value of Cert by Public/ Consumer</b>	<b>Certification &amp; Patient/Family Education</b>	<b>Certification &amp; Failure to Rescue</b>
<b>Yes</b>	0	2	0	no vote
<b>No</b>	54	61	60	no vote

## Research Agenda

After some detailed conversation it was the collective opinion of the group that some projects initially could be better addressed using marketing and communication strategies. These topics included:

- Consumer/RN Awareness of the value of certification
- Employer value of certification

The final set of projects to be included in the unified research agenda were:

Priorities	Projects
Patient Outcomes	Nursing certification and its impact on adverse events, symptom relief, failure to rescue, and other outcome-specific topics.
Continuing Competence	Best practices, methods, frequency and processes for recertification.
Work Environment	Critical thinking skills of certified nurses.

# The Final Round of Work

In the final round of work participants focused on clarifying a number of issues that arose during the previous two days. These consisted of

- marketing to consumer and employer groups
- defining a database that would serve the needs of all constituents
- defining an infrastructure to support ABNS in managing the implementation of this agenda
- identifying how other groups can participate in the process moving forward
- developing the first draft of the research agenda
- developing the first draft of a document that could be used by participants to communicate what took place at this Summit
- and further defining the work to move the agenda forward in the three main priority areas: patient outcomes, continuing competence, and work environment.

## Participant Work Product

The following are some examples of participant work products.

### TEAM 6 MARKETING: CONSUMERS

- TARGET AUDIENCES
- PATIENTS
  - \*\* • H.C. ADVOCACY GROUPS → BEST CARE; ACCESSIBILITY  
DEGREE OF IMPACT ON H.C.
  - \*\* • SPECIALTY NURS. ASSOC. → RECOGNITION BY EMPLOYERS  
COLLEAGUES
  - \*\* • POLICY MAKERS (GOVT) → RE-ELECTION / PUBLIC OPINION
  - GENERAL PUBLIC
  - M.D.S + OTHER HC WRKSR
  - \*\* • INS. COS. → ROI.

VALUE LEVER  
(WHAT MATTERS TO TARGET AUD.)

VALUE LEVERS MUST BE VALIDATED BEFORE MAJOR WORK BEGINS

### TEAM 12 VALUE TO EMPLOYERS/ MARKETING

#### Concepts -

- Competition between hospitals/private practice/Outpt centers  
attract clients, physicians, achieve Magnet status
- Payer (Insurance / 3<sup>rd</sup> party / Self-insured)  
Value - shorten LOS, administrative costs, premiums  
"outcomes" → reduced care over time
- Intermediate marketing efforts "before" pt outcomes data
- Know culture of institution → demographics

#### EMPLOYERS:

- ⑥ Nurse Recruiters
- How do we reach them?
- 1) professional orgs (AONE)
  - 2) Board members
  - 3) State Hosp Assoc.
  - 4) Healthcare Coalitions
  - 5) Consumer Advocacy Groups

	<u>INFRASTRUCTURE ELEMENTS</u>	<u>DESCRIBE, How Big / How Much</u>	<u>WHO WILL PROVIDE?</u>
<u>FUNDING</u>	Research Fee - possible cap (Certificate surcharge) Salary for Dev Director	Mkt value (1/2 time) or lower incentive	
<u>TOOLS</u>	Foundation / Research incorporation - not ABNS members only Research Committee becomes scientific panel - facilitate / conduct original research by ABNS	Grants, scholarships, awards	Individual vs Firm Part-time vs Full-time? Commission model? Director - Skills for hrs of intent, grant writing - Connected to both, Research Comm & Foundation; may have other business dev responsibilities Contract ABNS vs employee of NCG
<u>WHAT ELSE?</u>	Designation of board members (broad base for members → do'ers, donors, dooropeners) Endowments Hardware / Software		

TEAM 2

# Database!

Contents: *- hyperlink to each org profile at ABNS*

all nursing specialty certifying bodies provide:

- Current certificants - individual level
    - active
    - inactive
    - retired
- Standard template

name  
address  
email  
date of birth  
Contact (phone, etc)  
employment (place/status)

optional:  
race  
gender  
US educated  
primary language

licensure  
state(s) + status  
disciplinary action

education  
prelicensure  
highest nursing  
highest degree

experience - in specialty / pre-specialty certification / reason for certification  
- in nursing / - in current position / - date of initial certification (for each type)

# Purpose:

*→ great to have an incentive for each nurse to update demo info annually like \$500 savings on renewal*

- \* Create picture of certified nurse
- \* Cross-link to NCSBN database for disciplinary data sharing
- \* research

How fund:

- 1 grants ncsbn for startup
- 2 specialty groups if tied to disciplinary data base
- 3 individual certifiants
- 4 users of data

TEAM 5

Orgs. participate in Research Agenda

- 1 Cont. Orgs
- 2 Affiliates

## ABNS Member Orgs

- 3 Their Associated Member Orgs
- 4 Other Prof. Nursing Orgs
- 5 Employers of Cert. nurses
- 6 Schools of Nursing
  - 7 Unions - in some cases
- 8 Consumer/Advocacy org. (CAC, AARP, + others) (Amer. Heart Assoc)
- 9 Foundations (RWJ, etc.)
- 10 Healthcare Industry vendors
- 11 Govt. Agencies (VA + others)
- 12 Accrediting Agencies
- 13 State Boards of Nursing
- 14 NOCA

## Kinds of Participation

Direct research participation

- Research Subjects 1, 2, 3, 4, 5, 10, 13
- P.I. / Research team / Grad Students 1, 2, 3, 6, 14, 1, 2, 3, 4, 6, 14, 6

Funding/Sponsorship 1, 2, 3, 4, 5, 7, 8, 9, 10, 11, 14?

Consulting 1, 2, 3, 4, 5, 6, 8, 9, 10, 11, 12, 13, 14 (all except 7)

In-Kind contribution (Such as hosting survey - donated service) → All

Recognition/Endorsement All

Promotion/Marketing All except 2, 11 & 12

Publishing - Disseminate Results - 1, 2, 3, 4, 8, 14

Grant writing - 1, 2, 3, 6, 8, 10

Database/Data access - 1, 3, 4, 5, 13, 14

Advocacy - 1, 3, 4, 5, 8 (some) (some)

**THANK YOU!** **THE TEAM DOING THE PRE-WORK DID A FANTASTIC JOB**  
**FLEXIBLE & ACCOMODATING PROCESS**  
**TO THE PARTICIPANTS FOR YOUR TIME, EFFORT, & GREAT WORK!**

**IT IS NORMAL TO FEEL EXHAUSTED**

**MY BRAIN HURTS**

**CLOSING COMMENTS**

**INNOVATION LABS THANK YOU FOR TRUSTING US!**

**1<sup>ST</sup> WEEKEND IN MARCH**  
**OUR NEXT MEETING**
